
Applied Pyrolysis

pyrolysis journal of analytical and applied - the journal of analytical and applied pyrolysis (jaap) is devoted to the publication of papers dealing with innovative applications of pyrolysis processes, the characterization of products related to pyrolysis reactions, and investigations of reaction mechanism. to be considered by jaap, a manuscript **journal of analytical and applied pyrolysis - fs.fed** - pelaez-samaniego et al. / journal of analytical and applied pyrolysis 109 (2014) 222-233 223 torrefaction [16]. partial removal of hemicelluloses, changes in cel-lulose crystallinity, and dehydration reactions during torrefaction, on the other hand, significantly reduce the natural hydrophilicity of wood. **journal of analytical and applied pyrolysis - kit - itcp** - mechanism for the pyrolysis of ethylene, acetylene, and propylene [16] that encompasses the formation of pahs up to coronene. comparisons were made between experiments and computations for more than 30 compounds, including hydrogen and hydro-j. anal. appl. pyrolysis 86 (2009) 148-160 article info article history: received 18 july 2008 **journal of analytical and applied pyrolysis** - jiang et al. / journal of analytical and applied pyrolysis 94 (2012) 48-52 49 monotonously with temperature, whereas the effect of pressure was nonmonotonous. tg, a thermoanalytical technique, was widely used to ana-lyze thermal degradation of lignocellulosic materials. travis et al.
